

Community Input Meeting on October 19 at 7pm

On October 19, 2021, the Euharlee City Council will hold their regular work session at the Euharlee Presbyterian Church.

The agenda of the work session is to hear input from the community regarding the potential redevelopment of Osborne Park.

All the community is invited to provide the council with their thoughts and wishes for the future of Osborne Park.

The city wants to create a master plan for the redevelopment of Osborne Park. The possibilities are many and we want community input at the beginning of the planning stage. The design *may* include a new larger pavilion, a corn hole and horseshoe tournament area, a frisbee golf course, trail with outdoor exercise equipment for adults and youth, a dog park, an amphitheater and possibly a splash pad. Also, an area for food trucks or it may include some small structures for permanent or seasonal activities.

Please plan to attend and contribute to the possibilities; or please respond to the following survey with your thoughts about features you would like included in the plan.
